You must provide verification of your English Proficiency before you can be admitted.

The following are acceptable means for verifying English proficiency for purposes of admitting students – whether domestic or international – to graduate study who are not native speakers of English:

- Graduation with a baccalaureate degree (or higher) earned in residence from an accredited English-medium U.S. college or university or a college or university in the United Kingdom, Australia, New Zealand, Ireland, English-speaking province of Canada, or an English-speaking Caribbean country, with instruction conducted in English. Degrees earned online may not be used to verify English proficiency.
- Receipt of an official copy (not student's copy) of an applicant's English proficiency standardized TOEFL or IELTS test scores achieved not more than two years before the semester of first enrollment.

All students who are not native speakers of English and/or international students and who are admitted to campus-based programs are required to check in at the Applied English Center (AEC) upon arrival on campus. At that time, the AEC will confirm the student’s level of English proficiency and determine if English courses are required.
