

GRADUATE STUDENT DOCTORAL ADVISORY COMMITTEE

The membership of your committee should be discussed with your advisor before contacting the members and finalizing your committee.

Doctoral degree committees – 5 members: 3 faculty members from your department including your committee chair, at least 1 other member of the graduate faculty, and 1 KU faculty member who is considered the Graduate Studies Representative from outside your department or school. All members must hold [Graduate Faculty Status](#) (KU log in required to view database). The Graduate Studies Representative must participate in and be present at the oral comprehensive examination and the final oral examination. The student is strongly encouraged to select the Graduate Studies Representative in conjunction with the major advisor. We recommend that students have their committee finalized within their second year of study.
